

## **OPTIONAL SCRIPT:**

“Hello, are you a Colorado registered voter?” “Would you help put an important issue in front of Colorado voters?”

**{While you hand the Signer a petition and pen}** “Your signature does not say that you support or oppose the measure, it merely puts the issue in front of Colorado voters to let the people decide, not the politicians.”

**{When they start signing, stop talking.}**

*What is it?* "This protects children from intentional mutilation and death beginning at conception until adulthood."

*How does it do that?* "It closes all facilities that intentionally kill children before they can be born and makes it illegal to mutilate and disable children until adulthood."

*What about women?* "Women will be referred to non-violent and no-cost pregnancy care centers, churches, modern adoption agencies, and places where they can get the individualized help that they need."

*Why do we need this?* "Currently, 1,000 children are tortured to death every month and their mothers are exploited for profit. We can protect these children from dying and stop their mothers from being exploited by closing the facilities that exploit them."

*What about rape, incest?* “More perpetrators will be caught.” (Children are evidence of the crime and current law requires that rapists pay child support without access to their child when rape is reported.)

*Haven't there been other initiatives?* “This initiative has never been on the ballot before. This will be the first Life Initiative on the Colorado ballot since the overturn of Roe.”

*Can it pass?* “If 20% more voters vote for life, it can pass, and you can help by encouraging people you know to vote for it.”
