Because Every Child Deserves a Birthday

Healthy children with faces, fingers, and heartbeats are tortured to death all nine months of pregnancy in Colorado with no protections at birth. Abortion intentionally takes away the lives of children through dismemberment, scalding, stabbing, and starvation. Elective abortion is not health-care, not necessary, and has nothing to do with miscarriage (where the infant has already died).

Killing children harms a woman's reproductive health: **1 in 25 women need emergency medical services following an abortion** and 81% of women experience serious psychological issues following an abortion including suicidal tendencies, depression, anxiety, rage, and chemical dependence. Physical risks to women from abortion (both chemical and surgical) include hemorrhage, infection, infertility, and death. **Abortion harms women, men, families, and our communities.**

79 condones the deaths of innocent children and allows the exploitation of girls and women.

79 on the Colorado ballot violates a child's right to live.

79 prevents parental involvement and any safeguards for women or underage girls sex trafficked, coerced, or abused.

79 forces taxpayers to participate and pay for elective abortions.

79 prevents communities from protecting women and children or keeping dangerous abortion clinics out of our neighborhoods.

Register to vote and **vote NO on 79**, a proposed change to the Colorado constitution, and vote NO to any candidate claiming "reproductive rights" or "healthcare" that involve killing infants.
